

## ENVIRONMENTAL POLICY

ELIQUO HYDROK LTD is a member of the ELIQUO WATER GROUP, one of the largest German equipment manufacturers in the sector. The company operates across the United Kingdom and Ireland, servicing the water industry. Responsible water handling is one of the greatest challenges of our time. Water is a precious and vital resource. Water treatment is essential to sustaining human activity and requires high technical knowledge.

ELIQUO HYDROK LTD aims to develop sustainable solutions that minimise the environmental impact of the water industry by delivering environmentally considerate, cost-effective, and practical solutions from planning, design, manufacture, installation, and commissioning.

ELIQUO HYDROK intends to adopt a stewardship approach to environmental management within the Water Engineering Industry. Successfully identifying our impacts contributes to our operational efficiency, business prosperity, and the welfare of the surrounding environment today and in the future.

Our impacts on the environment have been identified as:

- Transport
- Energy use
- Use of resources
- Waste Management

To ensure we reduce our environmental impact and continually improve our environmental performance, ELIQUO HYDROK has set the following policy aims:

- Ensure our business is energy efficient and continue to review our procurement policies to reflect this.
- To monitor and endeavour to minimise our waste streams.
- Measure and endeavour to reduce our carbon emissions.
- Work with our customers and suppliers to ensure that packaging is kept to a minimum.
- Commitment to the protection of the environment, including prevention of pollution.
- Ensure our processes meet all legislative requirements.
- Commitment to fulfil its compliance obligations.

At ELIQUO HYDROK, we recognise that to achieve our environmental aims, we require the commitment of all our staff, suppliers, and customers. Our Environmental Policy is incorporated into our daily activities, and environmental awareness is effectively communicated to all areas.
