

# Electrical Contractor Approval

This certificate confirms that:

Eliquo Hydrok Limited

Are registered with Wessex Water Services as an Approved Electrical Contractor, under the terms of the Wessex Water Electrical and Mechanical Safety Rules.

The continued registration of an electrical contractor or services supplier, is dependent on the continued adherence to the Wessex Water Electrical and Mechanical Safety Rules and other Wessex Water policies, procedures and standards as may, from time to time, be issued.

All persons undertaking work on Wessex Water sites are required to have had specific training in the application, and a good understanding of, the Wessex Water Electrical Safety Rules and other Wessex Water policies.

The Principle Duty Holder is:

Arthur  
Newlin

Appointed by  
A Higginson  
on  
20/11/2012

Notes:

Assessed by Stuart Standerwick  
25/01/16

The Principle Duty Holder is responsible for ensuring that the policies and procedures of the contractor or services supplier are compatible with the Wessex Water rules and procedures whenever the contractor is working on Wessex Water sites or installations.

## Authorised Contractor (LV)

Authorised Contractor (LV) No Authorisations for work on HV (>1000v) equipment.

All contractors working on electrical equipment, plant, or installations, on Wessex Water sites are to carry personal identification, which shall include: The operatives name, the operatives photograph, the operatives authorisation or competency level, any working restrictions imposed by the Principle Duty Holder, the date of issue, the date of expiry (being normally 3 years from issue), the signature of the Principle Duty Holder and the operative.

This registration is valid until

25/01/2019

after which time, it should be renewed.
